

# Limited Single To Double

**Problem:** Because of many factors the demand for entry to a limited master is unpredictable. Clubs are not willing to risk having a low entry two stake single vs an almost guaranteed full two test double event even though a two stake single would accommodate more people.

**Solution:** Create a single-to-double type of master limited event where a test would open as a single two stake (120/180) event for the first 24 hours. If after 24 hours the test is not full the field would be split into two tests w/ half the entrants going into test 1 and the other half going into test 2. Entrants that are in test 1 would now be able to also enter test 2 and those in test 2 would now also be able to enter test 1.

Junior	\$75.00	46	Mario Cilia / Chris LeBel	6/3/2017 08:00 AM EST

# Senior Move-Up Clarification

Section 18 (Last paragraph) After entries have closed a dog may be moved up to the next level in a test in which it is entered when, according to the owner's records, the dog has met the title requirements for the test level for which it was entered. Notification must be made to the Test Secretary at least one-half hour before the start of the event. The owner/handler of the dog will be required to pay any additional entry fee(s) necessary to participate in the higher test level.

**Problem:** The regulations need to clarify how to deal with move ups with a full limited master test. AKC representatives says that a senior dog can move up in a full limited master test only if a spot has been vacated by a scratch.

**Solution:** The following, or something similar, should be added to the regulations.

*Note: A senior dog can only be moved up to a full limited master test if a dog has been scratched from the test and there are now less than the limited number of dogs running that test.*

# Filling Post Closing Scratches

**Problem:** The inability to fill post closing scratches prevents dogs/entrants that are able to run from running and burdens the club with lost income to cover incurred expenses.

**Solution:** Have Entry Express maintain the list of waitlisted entrants as of the closing. EE would make the list available online and allow entrants to still remove themselves from the waitlist until catalog printing. EE would then print the waitlist in the catalog. When dogs scratch post closing the printed waitlisted dogs can assume scratched dogs entry just like moved up senior dogs can (see Section 18 last paragraph.) The club would follow the same process that they do for moved up senior dogs...see example catalog.

 Dam: Twin Lakes Pattie Harrison  
 Breeder: Woody Thurman  
 Owner: Michele Rose  
 Handler: Bobby Baldwin (P or Michele Rose (A))

# 200 Mile Rule Unlimited Exception

**Section 3:** A club will not be approved for a licensed or member 4 test if the proposed date(s) coincides with an approved licensed or member test(s), and the distance between the events is 200 miles or less. An exception may be made if a club receives clearance from the club(s) holding the established licensed or member test(s).

**Problem:** The non established club has to request permission and the holding club grant that permission every year.

**Solution:** Allow the established club to grant the permission for perpetuity. The granting club could only remove the permission by providing notification to both the club and the AKC a minimum of 6 months prior to test date.

*The holding club(s) may provide the clearance for a single year or for perpetuity. The holding club(s) can only revoke the clearance by providing notification to both the requesting club and the AKC at least 6 months prior to the test date.*
